

Wisborough Green Cricket Club

1 May 2011

Dear Parents and Players

Welcome to Wisborough Green cricket club and the 2011 cricket season. We have an exciting program of cricket for all boys and girls aged from 5 to 16 and are looking forward to a summer of sunshine and great cricket.

Our club has been in existence since 1840 and we have a rich tradition of playing cricket in a positive way. This ethos is central to the club and we look forward to encouraging all our youngsters to play cricket in the spirit of the game, and to learn to be gracious winners and losers.

We have a number of very ambitious plans for the next few years including the attainment of a 'clubmark' accreditation status which recognises a vibrant and healthy infrastructure for cricket development at our club. We also have plans for a new Astro turf pitch which will enable us to extend our cricketing facilities.

A number of our coaches have been on courses over the winter period and along with our Australian overseas player, Justin Grant, and some of our seniors, we are hoping to develop our cricketing talent amongst the youngsters at the club. A number of our colts attended Sussex trials last year and we are very proud that two of our Colts will be representing the county this year.

Included in the registration pack that you should receive is a list of all the age groups along with dates and times of training and match information. If you require any information about anything relating to your child's age group, please do not hesitate to contact the Manager concerned.

We have also recently developed a website which is still very much a work in progress, but this too should hopefully enable you to access information specific to your child's age group, and general information about the club. The web address is www.wisboroughgreencr.co.uk

Those who have been part of the club before will know that there is a lot of background organisation required, and we would like to appeal to all parents to get involved in some way. The registration form provides just some opportunities to get involved, and we would like to encourage parents to take up the challenge.

There are a number of fundraising initiatives, including Our Century Club, and various events such as a golf day which provides much needed funding for the club. We would like to encourage all to participate in these activities and have a great time in the process.

Here's to a great cricket season

Yours Sincerely

Tim McMath
Chairman
